VFX and Motion: 2D and 3D animation, motion graphics, CGI compositing, camera tracking, particle simulations, physics simulations, photogrammetry, color grading.

02 / PROFESSIONAL EXPERIENCE

EPI Media Group

Producer / Video Editor | Atlanta, GA | August 2026 - Present

- Create graphics and edit video for multiple clients, supporting approximately eight deliverables per shoot with one- to two-day turnarounds.
- Produce the Coinology Podcast, overseeing production, editing, graphics, and final delivery.
- Handle camera operation, grip and electric, and technical support; manage concurrent projects and troubleshoot production issues.

Macrobase Productions

Creative Director | Grayson, GA | May 2016 - Present

- Develop, film, edit, and create visual effects for commercial, educational, and social media projects, leading work from concept through delivery.
- Produced branded campaigns for 20+ national and global brands while managing concurrent client projects and deadlines.
- Served as Head of Show for Behind the Screens, directing creative work and managing scriptwriting, talent interviews, and production logistics.

GCPSTV

Motion Designer / Video Editor | Suwanee, GA | November 2019 - March 2020

- Designed motion graphics, broadcast packages, branding assets, and multimedia content for district-wide educational and promotional initiatives.
- Filmed and edited video with production teams, maintaining visual consistency across district communications.

03 / SELECTED BRAND WORK

Produced content for Adobe, Apple, Amazon Prime, Cartoon Network, DC Comics, Disney Plus, Lucasfilm, Marvel, Netflix, Samsung, and Snapchat.
